

Personal CO Safety Monitor

- Real Time, Accurate 0-1% CO Level
- “MAN DOWN” Alarm Feature
- Audible, Visual, and Vibrating Alarms

The SAN-30 Personal CO Safety Monitor is designed to monitor ambient concentrations of carbon monoxide (CO) in real time. CO gas poisoning is the most common type of fatal poisoning in the world.

Our SAN-30 Personal Safety Monitor features a man down alarm that is triggered when an employee fall occurs. It also includes a high impact strobe, powerful audible notification and vibrating alarms.

The SAN-30 Personal CO Safety Monitor is fully tested and calibrated, and with proper use will provide years of reliable service.

Specifications

- Measurement Range: 0-1,000 ppm
- Accuracy: $\pm 0.9^\circ$ ($\pm 0.5^\circ\text{C}$).
- Measurement Interval: 5-30 secs.
- Operating Temperature: 32°F-122° F
- Battery: Li-Ion 4.2V, 1500 mAh
- Sensor Life Expectancy: 15 years

Part no. SAN-30

Features

- Electrochemical sensor, no consumable parts
- Audible, visual strobe and vibrating alarms
- Man down alarm – leverages accelerometer technology
- Rugged design with protective rubber enclosure
- Heavy duty metal clip
- Rechargeable Li-Ion battery – 12+ hours per charge
- Large LCD display
- Calibration methods: 0 ppm and 50 ppm
- IP54 housing protects against dust and rain
- Programmable alarm settings
