

## CO2 MULTI SENSOR SYSTEM CM-7000

The Multi Sensor System is designed to protect employees and customers near potential CO2 leakage points.

The wall mounted system features multiple gas sensors connected to a main touchscreen control panel allowing for easy end user notification and customization.

## FEATURES

- 5% CO2 NDIR Sensor
- 4 Configurable Alarm Settings
- 8" Touchscreen Control Panel
- Ability for up to 12 Multiple Remote CO2 Sensing Units
- 90dB Audible Alarms + 100 cd Strobes
- Mute Button and Key Switch
- Individually Addressable Sensors
- Easy end-user configuration

## SPECIFICATIONS

- **Measurement Range:** 0-5% (50,000 ppm) CO2 Sensor
- **Alarms:** 5000 TWA, 5000, 1%, 1.5%, 2%, 2.5%, 3%, 3.5%, 4%
- **Operating Temperature:** 0-50° C (32-122°F)
- **Calibration:** Zero with Nitrogen or Factory Calibration
- **Sensor Life Expectancy:** 10 years

## ADD-ONS

- CM-7001 - Sensor/Horn Strobe Combo
- CM-7002 - Reset Unit
- CM-7003 - Sensor Unit
- CM-7004 - Horn Strobe

## ELECTRICAL

- 24VDC hard-wired power option
- **Power Consumption:** 3 Watts

## INCLUDES

- 8" Tablet + Mounting Bracket
- (2) Remote Sensing Unit
- (2) Horn Strobes + Brackets
- (2) 6 ft CAT5e Cables
- (2) 25ft CAT5e Cables
- 54 VDC 1.11A Power Supply
- Manual
- CO2 Warning Signage
