IAQ MAX

The IAQ MAX is a sleek, indoor air quality desktop monitor, designed to measure Carbon Dioxide, Temperature, Relative Humidity and Barometric Pressure.

It features a large LCD display which showcases a 3-color code indicator and real-time data logging capabilities.

FEATURES

- Large LCD display to show:
  - Date
  - Clock
  - Battery
  - CO2
  - Temperature
  - % Relative Humidity
  - Barometric Pressure
- NDIR CO2 Sensor for fast, accurate and precise readings
- Visual and audible alarms
- Built-in data logging tables and analysis
- Powered by USB or rechargeable Lithium batteries
- Fresh Air, Automatic Calibration
- Clean, Modern Desktop Design

SPECIFICATIONS

- **Measurement Range:** 0-5,000 ppm
- **Accuracy:** ± 50 ppm ±5% reading value
- **Warm-up Time:** 1 sec
- **Response Time:** T90 < 120s
- **Temperature Range:** -10 to 50°C (14 - 122°F)
- **Humidity Range:** 0-90% RH (no condensation)
- Audible & Visual Alarms
- **Size:** 5.5 x 3 x 5.75 in (139.7 mm x 76.2 mm x 146 mm)

INCLUDES

- IAQ Max Desktop Monitor
- USB Cable
- User's Manual

ADDITIONAL DEVICES

- XT-5 Carbon Dioxide Desktop Monitor
- TIM10 Desktop CO2, Temp. & Humidity Monitor
- RAD-0301 CO2Mini Indoor Air Quality Monitor
- Tongdy - WiFi Indoor Air Quality Monitor
- RAD-0201 cSense Large Character Wall CO2 Monitor
