

GasLab Plus Carbon Monoxide Hand-held Gas Detector

- Audible alarm and LCD Backlight
- NDIR Technology
- Large Display for easy reading of:
CO, Temp, RH

The GasLab Plus CM-503 is designed to protect people who work near carbon monoxide concentrations in a variety of applications and industries.

CO alarms are critical in manufacturing, automotive, industrial, chemical, scientific applications, or anywhere CO is stored or produced in high volume.

The GasLab Plus CM-503 has an audible alarm, LCD Backlight, and Data Logging capabilities.

Best of all, the GasLab Plus CM-503 is easy to use, and the alarm is ready to protect your customers or employees.

Applications:

- Automotive
- Safety
- Industrial
- Chemical
- Scientific

Part no. CM-503

Specifications:

- Measurement Range:
 - 0~1,000ppm
(5,001~9,999ppm over range)
- Accuracy:
 - $\pm 5\% \sim \pm 10\%$
- Display Resolution:
 - 1ppm
- Temperature:
 - 0-50°C
- Operating Conditions:
 - 0~40°C (32~104°F), 0~95% RH, non-condensing, with lithium-ion batteries
- Power Supply:
 - Rechargeable Li-ion batteries
